AMRIT ARYA

(+91)- 7759858555 | amritaryajsr@gmail.com | LinkedIn | GitHub | Bhubaneswar, India

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate and aspiring **DevOps Engineer**, passionate about technologies and continuous learning. Equipped with a solid foundation in software development and hands-on familiarity with foundational DevOps and database tools.

EDUCATION

ITER | Siksha O Anusandhan University (CGPA- 8.42) **Sep 2024- Present**

Bachelor of Technology in Computer Science & Engineering

Coursework: Data Structures &Algorithms, Web Development, Computer Architecture, AI ML and Software Development.

DAV Public School, Jamshedpur **2022- 2024**

Higher Secondary (Class XII)

TECHNICAL SKILLS

- Languages- Python, Java, HTML, CSS, JavaScript, TypeScript
- Databases- MySQL, MongoDB, PostgreSQL
- DevOps & Cloud- Linux, Docker, AWS, Nginx
- Libraries & Frameworks- NumPy, Pandas, Matplotlib, Django
- Tools- Git, Jupyter Notebook
- Soft Skills- Communication, Time Management, Analytical Thinking, Adaptability, Decision Making

PROJECTS

- **Embryogen AI** **GitHub**
  - Developed a CNN-based embryo classification model using Python and deep learning for automated embryo quality assessment.
  - Integrated visualization tools to support accurate analysis and interpretation of classification results.
- **HydroSense AI** **GitHub**
  - Engineered a real-time ML platform combining predictive analytics, computer vision, and anomaly detection for hydroponic farming.
  - Integrated XGBoost, LSTM, and YOLOv8 models with observability and causal inference frameworks to optimize agricultural decision-making.
- **PRGI Title Verification System** **GitHub**
  - Developed an AI-powered title verification system to detect duplicate publication registrations and improve validation efficiency.
  - Automated record matching against PRGI datasets using machine learning techniques.
- **VOX- Sign Language to Text Translation System** **GitHub**
  - Developed a real-time sign language-to-text translation system using computer vision and machine learning.
  - Processed gesture inputs and generated text outputs to enhance accessibility for hearing-impaired users.

ACHIEVEMENTS & CERTIFICATIONS

- IEEE KIIT CubeX Ideathon- Secured 2nd place at the IEEE KIIT CubeX Ideathon for developing Cyber Sentinel
- Getting Started with Artificial Intelligence – IBM
- Career Essentials in Generative AI – Microsoft
- Data Visualisation Job Simulation- Tata Group

CO- CURRICULAR ACTIVITIES

- Contributed to the GDG ITER media team by creating and editing promotional content to enhance community outreach and visibility.
- Secured **2nd place in DAV National Sports (Archery Zonals) 2022**, demonstrating discipline and focus.
- Participated in **DAV Model United Nations (2020 & 2021–22)**, developing public speaking, debate, diplomacy skills.
- Volunteered at the **AICTE IIC Regional Meet 2025**, supporting event coordination, stakeholder engagement, logistics management, and team collaboration.
